

Photo Booth Details

(978) 602-6877 – DJZ@allthatmusic.us

The Photo Booth consists of a curtained area with booth attendant, in a secluded area or separate room of your reception for candid shots. They are shot in photo booth style. Professional photography lighting and camera make for great shots of you and your guests!

For the digital only package: guests are given a card with a web address where all the pics from that event can be downloaded for free. This is convenient in that they can print multiple pics and pics of other friends and family members from the event. This service is also automatically included with the print pics.

For the print package: 4 - 2x2 pictures are printed on a 4x6" layout with a saying and picture of your choice at the bottom (see sample below). A digital copy is also placed on a web site the next day for the couple and guests to download for free.

Our open air photo booth allows for more guests in each photo than a boxed booth!

Add a Keepsake Photo Album to your package. Get a printed copy of every photo taken and guests have space to write you a special note under their picture. It makes for a one of a kind wedding keepsake!

The print option makes great wedding favors!
